VICTOR ONYANGO ODHIAMBO

IT Professional – Networking, Technical Support, Software Development & Cybersecurity

Email: v.onyango.odhiambo1@gmail.com
Phone: 0717 140 342
Location: Kenya

PROFESSIONAL SUMMARY

Diligent and adaptable Information Technology student in final year at Maseno University with proven hands-on experience in fibre optic installation, router configuration, system maintenance, customer support, software development, and cybersecurity fundamentals. Successfully completed a 12-week attachment at Agapetech Enterprise Solutions Ltd with an official recommendation letter. Demonstrates strong problem-solving abilities, quick learning capacity, and a professional work ethic developed through academic training and practical fieldwork. Seeking a full-time position in Networking, IT Support, Technical Operations, Software Development, or Cybersecurity to contribute technical skills and grow with the company. Committed to delivering high-quality service, maintaining reliable systems, and continuously upgrading technical knowledge to meet evolving industry demands.

TECHNICAL SKILLS

Networking Skills

- Fibre optic cable installation and splicing for residential and small business internet connections
- Router and switch configuration including IP assignment, port forwarding, and security settings
- Basic networking protocols: TCP/IP, LAN/WAN, DNS, DHCP, and subnetting fundamentals
- Network troubleshooting using ping, tracert, and ipconfig commands
- Wireless access point setup and configuration

IT Support and System Maintenance

- System maintenance including OS updates, driver installation, and performance optimization
- Hardware troubleshooting and repair for desktops and laptops
- Virus and malware removal using various scanning tools
- Computer diagnostics using built-in and third-party tools
- Customer technical support for hardware, software, and connectivity issues

Software Development

- Programming fundamentals and logical problem-solving
- Understanding of software development life cycle
- Basic application development concepts
- Code debugging and testing fundamentals

Cybersecurity

- Network security fundamentals and best practices
- Basic threat detection and prevention concepts
- System hardening principles for Windows and Linux environments
- Security awareness and data protection practices

Productivity Tools

- Microsoft Office Suite (Word, Excel, PowerPoint, Outlook)
- Google Workspace (Docs, Sheets, Drive, Gmail)

WORK EXPERIENCE

Agapetech Enterprise Solutions Ltd – Karatina
IT & Networking Trainee (Attachment) | July 2025 – September 2025 (12 weeks)

Responsibilities and Achievements

Fibre Optic Installation and Splicing

- Successfully installed and spliced fibre optic cables for home fibre internet clients, ensuring minimal signal loss and reliable connections
- Conducted site surveys to determine optimal cable routing paths for residential properties
- Performed cable termination and connector installation according to industry standards
- Tested and verified signal quality using appropriate testing equipment
- Documented installation procedures and maintained accurate records of work completed

Router and Switch Configuration

- Configured and troubleshot routers for residential and small business customers, resolving connectivity issues within short turnaround times
- Set up wireless networks with appropriate security encryption (WPA2/WPA3)
- Implemented port forwarding and DHCP reservation for specific customer requirements
- Updated router firmware to ensure security and performance
- Diagnosed and resolved IP conflicts and DNS resolution problems

System Maintenance and Hardware Support

- Performed routine system maintenance including OS updates, virus scans, and hardware diagnostics, reducing system downtime
- Upgraded RAM, storage, and other components for customer computers
- Recovered data from failing hard drives and backup systems
- Installed and configured antivirus software for residential and business clients
- Provided remote support using various remote desktop tools

Customer Support

- Delivered frontline customer support, explaining technical solutions to non-technical users and improving customer satisfaction
- Responded to customer inquiries via phone, email, and in-person visits
- Created simple documentation for customers to troubleshoot common issues independently

- Followed up with customers to ensure issues were fully resolved
- Escalated complex technical problems to senior engineers when necessary

Marketing Support

- Assisted in marketing fibre internet packages, contributing to increased local customer acquisition
- Participated in community outreach and door-to-door awareness campaigns
- Prepared promotional materials and product information sheets
- Demonstrated internet packages to potential customers
- Collected customer feedback to improve service offerings

Key Achievement

Received an official recommendation letter from Agapetech Enterprise Solutions Ltd confirming diligence, adaptability, and professionalism during the 12-week attachment period.

EDUCATION

Maseno University (2022 – 2026)
Bachelor of Science in Information Technology – Final Year (Completing 2026)

Relevant Modules Completed and Key Topics Covered

Computer Networks

- OSI and TCP/IP models
- IP addressing and subnetting
- Routing and switching fundamentals
- Network protocols and standards

Network Security

- Security threats and vulnerabilities
- Firewalls and intrusion detection
- Cryptography basics

- Secure network design principles

System Administration

- User account management
- File system permissions
- Backup and recovery procedures
- System monitoring and logging

IT Support Fundamentals

- Troubleshooting methodologies
- Customer service techniques
- Hardware and software repair
- Ticketing systems and documentation

Data Communication

- Data transmission methods
- Signal encoding and decoding
- Multiplexing and switching
- Communication protocols

Software Development

- Programming logic and structures
- Algorithm design and analysis
- Debugging and testing strategies
- Version control basics

Cybersecurity

- Information security principles
- Risk assessment and management
- Security policies and procedures
- Incident response fundamentals

SOFT SKILLS

Communication and Interpersonal Skills

- Strong verbal and written communication abilities developed through customer support experience and academic presentations
- Ability to explain complex technical concepts to non-technical users in simple, clear language
- Active listening skills to accurately identify and address customer needs
- Professional email and report writing

Team Collaboration and Problem-Solving

- Experience working in team environments during academic projects and attachment
- Ability to identify root causes of technical problems and implement effective solutions
- Collaborative approach to troubleshooting complex issues
- Willingness to assist team members and share knowledge

Work Ethic and Reliability

- Professional work ethic demonstrated through consistent attendance and task completion during attachment
- Self-motivated to complete assignments without constant supervision
- Honest and transparent communication with supervisors and customers
- Commitment to meeting deadlines and quality standards

Adaptability and Learning Agility

- Quick learner who adapts easily to new technologies and work environments
- Ability to work under pressure and handle multiple tasks simultaneously
- Open to feedback and continuous improvement
- Flexible approach to changing customer requirements and priorities

Time Management

- Effective prioritization of tasks based on urgency and importance

- Ability to manage multiple customer requests simultaneously
- Punctuality and respect for scheduled appointments and deadlines
- Organized approach to documenting work and maintaining records

DOCUMENTS AVAILABLE

- **Recommendation Letter** – Official letter from Agapetech Enterprise Solutions Ltd (2025) confirming successful completion of 12-week attachment with commendation for diligence, adaptability, and professionalism
- **National ID** – Government-issued identification document
- **University Transcripts** – Available upon request from Maseno University, showing academic performance in all completed modules

REFEREES

Professional and academic referees are available upon request. Referees include:

- Former supervisor from Agapetech Enterprise Solutions Ltd (can provide contact details when requested)
- Academic lecturer from Maseno University Department of Information Technology
- Character reference from a professional contact

Contact information for referees will be provided directly to potential employers upon reasonable request to respect referees' privacy.

ADDITIONAL INFORMATION

Availability

- Available for full-time employment upon completion of studies in 2026
- Flexible for part-time, internship, or graduate trainee positions before graduation
- Willing to relocate within Kenya for suitable opportunities

Career Interests

- Networking infrastructure and administration
- Technical support and help desk operations
- Software development and programming
- Cybersecurity analysis and operations
- IT project coordination

Professional Development Commitment

- Committed to continuous learning and professional certification
- Actively following industry trends and emerging technologies
- Willing to pursue vendor certifications (Cisco, CompTIA, Microsoft) as career progresses
